

FOR IMMEDIATE RELEASE

GreenerVolts Partners with 84 Lumber's GreenEdge Supply

FREDERICK, MD — March 11, 2013 [GreenerVolts, LLC](http://www.greenervolts.com), a national LED lighting solutions provider has announced today their partnership with 84 Lumber's GreenEdge Supply. Available today customers can purchase GreenerVolts high quality LED products directly from the [GreenEdge Supply](http://www.greenedgesupply.com) website.

The GreenEdge Supply website serves as a vital resource for customers to research, network, communicate, and build on the standards of the green building industry. The product lines offer solutions to save energy costs, improve productivity and help preserve the environment. "It is key to work with a partner that shares the same passion for the environment combined with a commitment to offer quality products as we do. With this in mind GreenerVolts was a natural choice as our LED lighting partner," stated Chrissy Brant, VP of Green Initiatives with GreenEdge Supply.

"We are excited to partner with GreenEdge Supply. We share the same enthusiasm in for eco-friendliness education and for offering high quality environmentally friendly products to consumers," said Alex Canizales, GreenerVolts CEO. "GreenEdge Supply, like GreenerVolts, is committed to making these eco-friendly products easily available to the consumer."

GreenerVolts offers quality tested and certified products that are energy efficient and eco friendly. GreenerVolts LEDs provide up to an 80% energy savings, are never too hot to touch, and contain no mercury or other hazardous substances that poison the environment. All GreenerVolts products come with a standard 5-year warranty.

The GreenerVolts LED products can now be purchased at www.greenedgesupply.com or direct from a dedicated 84 Lumber account representative.

About GreenerVolts
